PROFESSIONAL SUMMARY

Frontend Developer specialized in building modern, responsive, and scalable web applications using **React.js** and modern **JavaScript/TypeScript** technologies. Experienced in developing reusable UI components, integrating REST APIs, optimizing application performance, and implementing efficient state management solutions. Strong practical experience with **React Query** for API communication and caching, **Zustand** and **Context API** for state management, **Axios** for HTTP requests, and **React Custom Hooks** for reusable business logic while following **DRY principles**.

WORK EXPERIENCE

Frontend Developer (Project-based)

2024 – 2025

FindTech - United Arab Emirates, Remote

- Developed responsive and maintainable web applications using React.js, JavaScript, Tailwind CSS, and Bootstrap.
- Integrated REST APIs using Axios and React Query to improve data synchronization and reduce unnecessary network requests.
- Implemented React Query caching strategies to improve application responsiveness and optimize API performance.
- Developed reusable React components and Custom Hooks to reduce code duplication and improve maintainability.
- Utilized Zustand and Context API to manage and share application state across multiple components efficiently.
- Improved frontend performance by minimizing unnecessary re-renders and optimizing component architecture.
- Collaborated with project stakeholders to translate business requirements into production-ready solutions.
- Participated in debugging, testing, and resolving frontend issues across different browsers and devices.

Frontend Developer

2024 – Present

Freelancer

- Design and develop responsive web applications using React.js and modern frontend technologies.
- Build reusable UI components and scalable frontend architectures.
- Integrate third-party and custom REST APIs.
- Optimize website performance, maintainability, and user experience.
- Implement efficient state management solutions using Zustand and Context API.
- Create reusable business logic through React Custom Hooks.
- Deliver production-ready applications based on client requirements.

PROJECT EXPERIENCE

Amal Kabashi School Management:

- Developed responsive admin dashboards and management systems.
- Implemented centralized state management and reusable UI systems.
- Optimized application performance and maintainability.
- Tools and Techniques: HTML, CSS, **TypeScript**, Tailwind CSS, ReactJS, React-Query, Zustand, **React Formik**.

Sudatech-Shop :

- Developed product listing, filtering, search, shopping cart, wishlist, and checkout interfaces.
 - Implemented API integration and optimized server-state management using React Query.
 - Built reusable and scalable frontend architectures.
 - Tools and Techniques: HTML, CSS, JavaScript, Tailwind CSS, ReactJS, **React-Query (Tanstack Query)**, Zustand.
- Demo: sudatech-shop.com

Villans Hotel Booking :

- Implemented user authentication using JWT.
 - Provided hotel filtering by location, rate, and price.
 - Added features to manage a favorites list and handle bookings.
 - Tools and Techniques: HTML, CSS, JavaScript, Tailwind CSS, ReactJS, **Redux-Toolkit**, **OpenStreetMaps**.
- Demo: villans.com

Zus Ecommerce :

- Displayed products from an API with search functionality.
 - Enabled users to add products to a wishlist and cart, with options to delete items.
 - Tools and Techniques: HTML, CSS, JavaScript, Bootstrap CSS, ReactJS, Context API.
- Demo: zus.com

PROFESSIONAL SKILLS

Technical Skills:

- **Front-end Development:** Proficient in **React.js**, **JavaScript (ES6+)**, **TypeScript**, **HTML5**, **CSS3**, **Bootstrap**, **Tailwind**
- **State Management:** Experience with **Context API & Zustand**.
- **API Integration:** Familiar with **React Query (TanStack Query)**, **Axios**, **REST APIs**.
- **React Concepts:** Hands on **Custom Hooks**, **Component Reusability**, **Performance Optimization**, **Code Splitting**, **DRY Principles**.
- **Version Control:** Proficient in **Git**, **GitHub** for collaborative development, **GitHub Copilot Prompt Engineering**.

Soft Skills:

- Team-oriented with a **proactive approach** to project challenges.
- Ability to **solve problems efficiently** and adapt to new technologies quickly.
- Strong **communication** and collaboration in cross-functional teams.

EDUCATION

Bachelor of Science in Computer Science & Information Technology – Information System

March - 2023

Al-zaiem Al-Azhari University

LANGUAGE COMPETENCIES

- **Arabic** (Native / Fluent).
- **English** (Limited Working Proficiency).
- **Spanish** (Discovering).

INTERESTS

- Web Performance Optimization
- Backend Development (Node/Express, ORM, DBMS, RESTful APIs, Networking).
- Mobile Development (React Native).
- Cloud Engineering (CI/CD Pipelines, Docker, AWS).
- ERP Systems (Odoo, Sales, Purchase, POS, Basic Accounting).
